Re: **REDACTED**

U.S. Patent Application  
**REMOTELY ACTUATED BRAKE FOR SLIDE-OUT REEM**  
Our Docket No.: 18393-12

*mechanism*

Dear Ray:

Please find enclosed revised drafts of the above-identified patent applications in which we have incorporated the additional embodiment you brought to our attention several weeks ago. I have also passed these new drafts on to Jim. In order to hopefully ease the review process for you and Larry these drafts have been provided in a "redlined" format so that you can more easily see the changes we have made from the earlier drafts and not have to reread each entire application.

**REDACTED**

After the applications have been reviewed in detail, please give me a call to discuss how to proceed. If it is believed that the application is now complete, we will then prepare the formal documents and forward to you a clean version of each application and formal documents for execution. Upon execution and return to us of these documents, we will then proceed to file the application with the United States Patent and Trademark Office.

We look forward to hearing from you concerning the above-referenced draft application.  
If you have any other questions or comments, please do not hesitate to give me a call.

Best Regards,

*Ronald J. Tamura*
